**Community Labor United** empowers community-based organizations and labor unions to build strategic campaigns that protect and promote the interests of low and middle-income working families in the Greater Boston area.

Through a program of coalition building, research and policy development, public education, and grassroots mobilization, we advance policies that promote quality jobs, secure healthcare, affordable housing, and environmental justice for all.

# The Logo

The Community Labor United logo, though simple in design works on many levels to display the organizations values of community and togetherness. The three letters, C L U interlock on hinges in the lockup which brings us our visual and color inspirations.

As a secondary element the hinges in the logo can be used as a texture or an element to upllift design materieals.

The typography for this brand is geared toward being fun and loud. We want to share important information with our followers and constituents, and deliver it in a way that feels organic and fun. Its important that the typography be assessable to all readers.

While the H1 can be swapped out for flavor fonts for campaign or seasonal social graphics it must be used on promotional literature, and documents.

# Photography

Photography for the CLU brand should be focused on capturing a moment in time. At rallies and events we want to show action and motion. Candid photography is a large portion of what makes the CLU brand shine, as it shows the real hard working people that make up our fights every day. Even staged photos should feel relaxed and natural, with comfortable smiling faces.

We want photos that are crisp, colorful and diverse. Subjects should show emotion and should never feel posed. Representation is important in our fights, so its important to shoot with an eye on diversity.
